

B1
access the travel database to locate travel information corresponding to the destination location and the appointment time; and

determine an arrival time at an intermediate point within a vicinity of the destination location using the located travel information to ensure arrival at the destination location by the appointment time.

Sub C2
B2
20. (Amended) A computer-readable medium containing instructions for processing travel requests using a travel database by:

receiving a travel goal specifying a destination location and an appointment time for arrival at the destination location;

accessing the travel database to locate travel information corresponding to the destination location and the appointment time; and

determining an arrival time at an intermediate point within a vicinity of the destination location using the located travel information to ensure arrival at the destination location by the appointment time.

Sub C3
B3
39. (Amended) A method for processing travel requests using a travel database comprising the steps of:

receiving a travel goal specifying a destination location and an appointment time arrival at the destination location;

accessing the travel database to locate travel information corresponding to the destination location and the appointment time; and
